The American Air Systems, Inc. "Annual Wellness Check" for your Home Stand-by Generator

Our goal is to maintain and extend the life of your back-up emergency system.

Generator Operational checks will be scheduled to be completed Monday thru Friday 7:30 am - 4:30 pm.

We will test and check the following;

- Change Engine Oil and dispose at a collection center
- Change Oil and Air Filters
- Change and Gap the Spark Plugs
- Change the Coolant (liquid cooled generator only)
- Check the Starting Battery (we recommend replacement every 3 years)
- Upgrade the Firmware (if applicable)
- Check the Operations of the Generator and the Automatic Transfer Switch
- Simulate a power failure to the home / business
- Test the Volts, Amps and Hertz of the generator
- Verify the sequence of operation
- Return the home / business to utility power
- Check exercise date / time
- 10% Service Discount* on any repair (excludes Diagnostic)
